RapidSOS

Your Needs, Your 911

Help First Responders Help You!

EmergencyProfile.org lets you create a free confidential profile so first responders know about your accessibility needs, and how best to help you — BEFORE they arrive.

1. **Visit** emergencyprofile.org
2. **Create Your Profile.** Share your needs, medical info, and emergency contacts.
3. **Keep It Confidential.** Your information is secured and only shared with first responders when they respond to your call.

Some **Access Needs** can include:

Communication
"I cannot speak."

Sensory
"Sirens cause me to panic."

Behavior
"I run away when frightened."

Mobility
"I use a wheelchair."

De-escalation
"Give me one instruction at a time."
